"Domestic Engineering" Quarterly Index

Vol. CXXVI—January 12 to March 23, 1929

This is the seventy-seventh index of "Domestic Engineering," an index for each quarter appearing at the end of that quarter. We ask our readers to note the value of this index for reference, calling special attention to the separate classifications of the departments of "Retail Advertising Service," and "Merchandising Articles," both of which contain many valuable ideas along the line of trade extension.
